Happy New Year!

We'd like to say Thank You! for your patronage this holiday season and all of us at TBC wish you a happy, healthy and prosperous 2012!

Want a private class? Guarantee attendance of at least 4 people and you choose your class, date and time of day....to the extent our instructors are available. Browse our workshop photos online or stop in the Worcester store to see the workshop samples. We'll try our best to accommodate you!

Trunk Show! Our now famous trunk show is still in progress until at least mid-February! So come in for fantastic savings on glass pearls, crystal, 'sea glass', semi-precious, fresh water pearls, metal components.... And more!

BB-101 Intro to Beading will teach you all about the beads, supplies and tools available to the modern beader. In this 2-3-hr session you will make a bracelet using beading wire and attaching a clasp and a pair of simple earrings. \$35 includes a bracelet/earring kit and lots of information, tips and tricks for the new beader! **(Teens \$10.00 off!)**

SBS-Starburst Pendant – This lovely design makes a beautiful pendant to hang on a silk cord for **Valentines Day** gift-giving. Incorporating seed beads and Swarovski crystals for lots of sparkle, you will work this up using several bead stitches. Good eyesight and comfort with needle and thread is must. Our newest instructor, Sandra, will show you how! \$35 includes materials for one starburst. Instructor: Sandra

SBS-Button Pendant – Choose from 3 button kits to create this lovely pendant. Start by surrounding your button with a peyote bezel and then embellish the pendant and hang it from a beaded chain. No bead stitching experience needed, but good eyesight and manual dexterity a must! \$45 includes instruction and one kit. Instructor: Diane

SBS-TilaCuff – Two-holed Tila beads are in! Paired with size 11 spacers, this truly unique bracelet is a wonderful way to use these fun beads. \$35 includes materials for one cuff. Instructor: Peggy

Flat Spiral- This weaving of crystal bicones or smooth druks and seed beads is a variation of the spiral rope stitch. Worked with needle & thread, too few stitches are used to form a spiral, thus, rows are left flat and worked with shared beads, creating an unusual, but beautiful look. The bracelet can be done either single or double. We will be doing the single version, with instructions for the double. \$25.00 includes needle, thread and clasp....you purchase your beads. Instr: Peg

SBS-Caterpillar Cuff – This fab bracelet is a great way to learn peyote and simple embellishment techniques. The end result will get you lots of Wows! Too. Reduced fee for this class! Only \$20 plus materials!

No time to take a workshop? Can you easily follow beading instructions? We now offer Kits for sale from some of our popular classes!

- **Awareness Ribbon Peyote Bracelet**- Did you miss this class? Do you already know the peyote stitch or are a great self-teacher? We now have the kits, with Peg's detailed instructions, available for sale for \$22. What a bargain!
- **Mumbai Moon Brooch** – This unique little number will guide you through the steps to create a cabochon and goes up pretty quickly! \$22

- **More kits underway!** Stay Tuned....

Tatnuck Beaders - Tatnuck Bead Co. would like to extend an invitation to any experienced beader who would like to spend a few hours sharing ideas with other experienced beaders. Since this is not a workshop, no formal instruction will be given, but you may certainly teach one another. This is NOT for folks who are not already beading. Be sure to bring your latest project(s) to work on and all your own tools. (Of course you can shop while you are here too!) Because this is a booked event in our back room, you may bring beverages and food. No Charge -

Willing to travel just a short distance? Tatnuck Bead Westborough offers many of the same classes and more!
